Beyond Beauty

More captivating than other quartz counters, more durable than granite, Cambria creates unique surfaces with the true elegance you demand of natural stone.

THE CLEAR CHOICE IN QUARTZ COUNTERTOPS

C A M B R I A®

Cambria has 120 designs to suit any taste. Whether you prefer clean and contemporary, bold and colorful, classic or jewel-like with a hint of sparkle, you will find a design that is the perfect complement to your cabinets, backsplash and flooring. And you won't have to worry about falling in love with the most expensive design in the collection. Every design is priced the same.

And Cambria only trusts and allows exclusive partners, like FLOFORM, to fabricate and install Cambria countertops. So visit their showroom to see all 120 designs and find your perfect countertop.

Just like a diamond, the value of quartz increases with the clarity of the stone. Quartz that is cloudy or contains hints of blue, pink or yellow can cause countertops to have discolored patches or uneven color and depth. That's why Cambria rigorously tests all of its quartz to ensure purity and clarity. So the Cambria design you like in the showroom, will be the countertop you love in your kitchen.
